MILLER BREWING COMPANY

LEGAL DEPARTMENT

INTER-OFFICE CORRESPONDENCE

TO: D. F. Keane  
FROM: W. G. Schmus  
SUBJECT: "Indoor Air Quality" Questionnaire

DATE: Jan. 21, 1991

This correspondence is in response to your memo of December 17, 1991.

First, and as a clarification, in developing our responses, we restricted ourselves to considering only office work space - space used for commonly accepted administrative and management activities. We excluded from consideration all space/areas involved in direct and indirect manufacturing activities.

Second, the subject of "Indoor Air Quality" is both a new and evolving one. Some items mentioned in the Department of Labor's RFI have been, to varying degrees, already addressed by other governmental agencies.

Last, attached is Miller Brewing Company's responses to the list of specific questions. Additionally, we did fully review the 92 items listed in the RFI and determined that we could not comment further than on the 14 specific questions in your memo.

If you require further details/clarifications, please call Al Barry, (414) 931-4573, or me.

William G. Schmus/amd
